Public Recall Issued on Certain Blue Moon Products

WINNIPEG – The Canadian Food Inspection Agency (CFIA) has issued a recall on certain 355 ml and 473 ml cans of Blue Moon products due to the potential for metal fragments to become dislodged from the can lid during opening.

In Manitoba, affected products are only those matching these specific case code dates:

Product Description	**MBLL SKU**	**Case Code Date** (production date alpha numeric)
Blue Moon Belgian White Ale single can 473 ml	19945	K026
Blue Moon Belgian White Ale 12-pack cans 355 ml	19947	J256
Blue Moon Mango Wheat single can 473 ml	57393	K026
Blue Moon Non-Alcoholic Belgian White Ale 6-pack cans 355 ml	69161	H216

**The CFIA website shows affected products sold across multiple markets, while the list above reflects only the affected products that were available for sale in Manitoba.*

Affected product has been removed from the shelves of Liquor Marts, beer vendors, and rural liquor vendors in Manitoba. Customers who purchased affected cans of Blue Moon should not use, serve or consume the product. Instead, Manitobans can return affected cans to their local Liquor Mart, beer vendor, or liquor vendor for a full refund.
