
INFORMATION SECURITY TECHNICIAN

Full Time Employment Opportunity

Reporting to the Manager, Information Security, the Information Security Technician is responsible for providing operational support for Manitoba Liquor & Lotteries Information Security infrastructure. The incumbent is responsible for analyzing infrastructure security data from various sources, maintaining the internet content filtering system, vulnerability management, and performing user, server, and system audits.

Duties:

- Monitor and analyze logs and events to ensure that relevant data is captured and that data sources are performing as required.
- Monitor and maintain security systems (servers) and tools including internet content/virus protection system, intrusion detection, and external email gateway (anti-spam).
- Monitor file systems and directory services for unauthorized access or changes.
- Manage server and network-related infrastructure. This includes patching, installation, configuration and monitoring capacity.
- Monitor a variety of industry information sources to stay current with potential vulnerabilities and fixes for applications and operating systems used by ITS.
- Communicate all discovered vulnerabilities to appropriate support staff and management.
- Prepare and complete reports on internet usage, firewall or other activity, and ad-hoc reports as required.
- Respond to and complete incoming requests (RFS, phone calls, e-mails, etc.) from various departments.
- Participate in researching and implementing new departmental technology solutions.
- Encourage a climate that supports diversity.
- Performs other duties as assigned.

Primary Qualifications:

- Completion of a recognized degree or diploma program in an IT related discipline, or an equivalent combination of education, certification, and experience.
- A minimum of two (2) years information infrastructure experience.
- Strong analytical, and organizational skills.
- The core competencies for this position include achieving quality results, adaptability/managing change, communication, customer service, decision making and problem solving, integrity and building trust, teamwork and cooperation and valuing diversity. These competencies are deemed important for the success of the position and organization.

Secondary Qualifications:

- Bilingual (French/English) language skills.
- Working towards becoming a Certified Information Systems Security Professional (CISSP) or SANS professional certification (GIAC), or willingness to be certified, would be an asset.

****Testing may form part of the screening/selection process. Employment Equity will be a factor in the recruitment process.*

Circumstances may arise where the bulletin may need to be withdrawn or the number of positions may need to be increased, depending on the Collective Agreement.
